Deduction Change Form Without Taxation Defaults

You have requested either a Deduction or Reimbursement be added to your payroll or some other taxation exception. These include Health Insurance, Investments Plans and AFLAC® type accident plans, etc. For other taxation exceptions, this might be an employee on a work Visa, etc.

We request specific direction, so that you have the taxation set up as per the IRS and State rules. If you are unsure about the choices, you may give us a call and you may need to call your Benefits Broker, CPA or Accountant for clarification. We take direction, but do not make decisions on your taxation as we do not have access to the information you may have when purchasing health or investment plans, or viewing employment docs.

Note: we have another form with common Deductions and Taxation types, with the typical boxes checked. Please download from our website or ask your processor for the link.

****Please email or fax back completed form to your dedicated processor****

Thank you, Pink Payroll Processing
